

# CONNECTED EARTH

by Celestial Dynamics

Celestial Dynamics

## DESCRIPTION

See how we travel and communicate around the Globe.

Planet Earth is connected by many ways. Experience connectedness from a global perspective. Overlay roads, railways, navigable rivers, shipping lanes and flight routes to find out how we move across the globe. See the relationships between nodes of transport and communication. Activate the internet connection layer to see the submarine cables and how the populated areas of the world interact with each other.

Price: Free

Category: Education

Age: any

OS: iOS and Android

Developer: Celestial Dynamics Ltd

Release date: 21st June 2017

contains no in-app purchases or third-party advertising.

The core structure of life is connectivity. This is key to understand our environment and behaviour. The connected earth app visualises a glimpse of this connectivity from which we experience life and the entire magic of creation.

Raise awareness of the amazing planet we live on and be part of the growing number of globally conscious people in the world.

The Earth is connected, are you?
